Haven't heard back from Tracy yet to see if she has any ideas on how to figure this out.

Hi Antony,

We have another PFAS search that you might be able to help us with. The NDAA requires us to evaluate the following PFAS for addition to the TRI list:

"(N) each perfluoroalkyl or polyfluoroalkyl substance or class of perfluoroalkyl or polyfluoroalkyl substances for which a method to measure levels in drinking water has been validated by the Administrator"

We were provided the attached list of chemicals that are covered by test methods 533 and 537.1.

Any help much appreciated.

Thanks.
